

# ROACING. 101

New for 1995.  
A full selection of  
motocross and off road  
gear. Made from the finest  
material and constructed  
to be the baddest stuff  
since the invention of the  
sport. later.

1995

# SINISALO

**The New SCD 4 pant from Sinisalo.**  
**1000 Diener Dupont Cordura. Schoeller Stretching Kevlars.**  
**Synthetic threads. Sublimated Poly side stretch.**

*It takes a real good eye to notice the differences in everybody's pants these days. I mean, if you cut off all the logos you almost couldn't tell one brand from the next. Sinisalo's SCD 4 pants have all the same features as the others, or should we say, the others attempt to have the same features as Sinisalo. Sinisalo's been making pants longer than most of the imitators have been in business, so it stands to reason that even without the logos, Sinisalo pants have features and benefits not noticeable to the naked, untrained eye. 53 years. You do something for 53 years and it becomes second nature. Robots, same stitch count on pant number one Monday morning as on pant three hundred and four at the end of the day. Materials, when your a leader Dupont® and Schoeller® ask you what you need and then give the special raw goods to you exclusively. Quality, that goes without saying. Sinisalo pants. Always imitated sometimes duplicated but never even close. Now available with and without knee cups.*

# SCX 2 PANTS

**The New  
SCX 2 Pant.**

**2 Time Super Cross  
Champions. World Enduro  
Champions. Japan Series  
Moto Cross Champions.**

**These riders could have used any brand and style of pant they wanted, well as long as their lawyers said ok, but they chose to use Sinisalo. Inspired by racers, the SCX line of pants has all the best features of the top of the line pant and a couple features made just for this pant. Light weight and cool LogoText fabric graces the front of the thighs while Cordura, the toughest material for pants, wraps your rear. A 4 way stretching crotch panel keeps the 2 fabrics working in harmony. Sublimated Schoeller Stretch Kevlar wraps your knees in everlasting comfort while the anatomically unique side stretch and the extra wide calf stretch keeps your lower body in a blissfully happy existence. really. Check out the 1995 SCX 2 pant now and see for yourself what all the fuss is about.**

The New Tech Pant  
Like we said before, "Quality does have its price, only now it's less than you think." The Tech line from Sinisalo has all the features the big boys have like Schoeller Stretch Kevlar knees, sublimated graphics, high Diener Antron Nylon construction and a cuff. Plus it offers something special that no one else on the planet has been able to duplicate. The best fitting pattern around. Sinisalo has has 53 years to perfect this feature and the secret is all Sinisalo. Many companies say made in Finland, but only Sinisalo Brand pants have the classic, uniquely Sinisalo, fit. Trust me. I know what I'm talking about.

Check out the cool Khaki color. Tug on a seam or two. Try the fit for yourself. Do all of this, then buy your favorite color. Sounds too simple? So what. See you at the races.

**SINISALO**

Sinisalo Pacific 27833 Ave. Hopkins #2 Valencia CA 91355 CA 805•257•3386 FAX 805•257•3455

The new **BULLSEYE** jersey from Sinisalo. Made with 60/40 Cotton-Poly material it offers the cool comfort of cotton against the skin with the stain and fade resistant Polyester on the outside. Printed with water based inks the jersey is not only safe to the skin but will decompose rather nicely long after you're in your easy chair. Cut with an award winning "RACING" pattern, our new top has every thing you could ask for and a couple of things you never thought of.

white

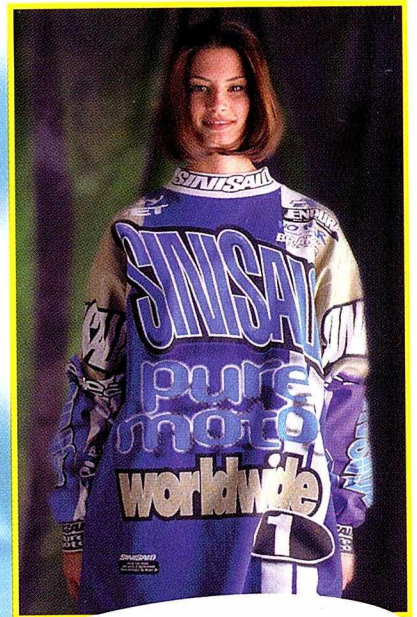

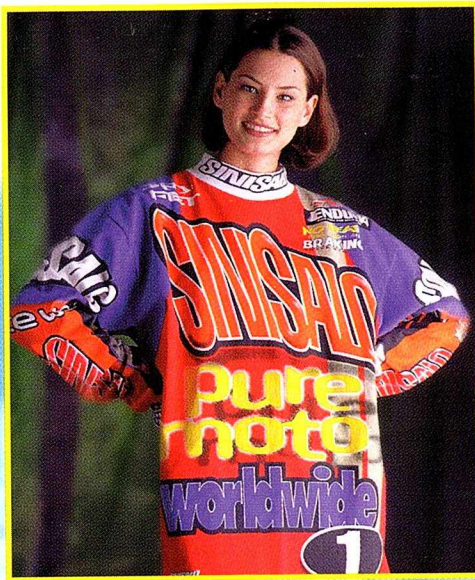

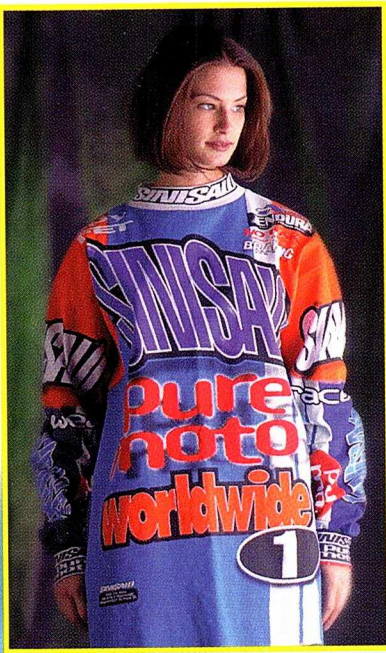

The new **SPORT** jersey from Sinisalo. Printed in the good ol' U S of A using 100% cotton made from home grown cotton balls. Water based inks keep you cool and comfortable. The high memory cuff and collar are made to resist arm pump and unlike the other jerseys available, feature the Sinisalo logo. And at no extra cost to you, we've left the back white. So there you go.

*The new SCX Chest Protection system from Sinisalo. Made in Italy from totally man made plastics, foams and polymers, the SCX Chest Protector fits your chest and back like no other chest protector offered on the globe! Our cool floating and flexible 2 stage rear panel glides over the rear of your pants for an unrestrictive and oh so comfortable ride. Fully adjustable side strapping, removable biceps protection and full floating shoulder protection ensure a smooth landing even with the landing gear up. And we think the graphics floor everyone else's.*

# AIR GLOVES

\$45.99

## The New AIR Glove.

It's made with BioFoam. It's an award winning design exercise. It's a classic reborn. Tada. The 1995 AIR glove features a entirely new cuff system and top design. Made with fewer moving parts, the top design protects, flexes and performs like no other. The 2 stages of knuckle foams overlap and curve to create a natural bending pattern for the entire hand. Longer in the cuff than the Shorthand its ideal when more wrist coverage is needed and the fingers are roomy, pre-curved and feature a place for each and every one of your fingers even your thumb. Jeff Stanton likes them. We like Jeff. So I guess if you like Sinisalo and you like Jeff you'll like the AIR glove too.

# SHORTHANDS

## The ShortHand.

The "original" short design. The cuff features 2 mil neoprene, slit at the sides for easy entry and a multitude of tension adjustments while all along never interfering with the natural movements of the moto wrist in motion. EVA padding in the ball of the palm helps to reduce the pressure on the sensitive nerve endings in your hand. And the 2 layer Clarino palm reduces the bunching of the palm. Our light weight Thermalweld top features the registered Sinisalo logo and keeps your knuckles soft and supple as well. The 3 ply mesh top, Sublimated finger stretch and the most copied fit in the industry all but guarantee, no, wait, we do guarantee, the coolest glove ever.

# TECH GLOVES

\$27.99

## Tech Gloves.

Isn't it funny, the more things change the more they stay the same? The new Tech glove is actually about 15 years old! A tried and true design, the Tech glove features a no nonsense pattern with a elastic cuff and woven finger stretch. Ricky Johnson loved them, Jeff Ward dug 'em and Jeremy even thought they were cute. But he used the Shorthands. A Thermalweld top, Clarino palm, 5 fingers and the classic, Made In Finland fit makes this glove better, way better, than the Made in China copies. Left and right glove included in this matched set. For a limited time only! ( about a year.) So hurry and place your order now.

The New Radius belt. Floating technology has landed on the Radius belt from Sinisalo. Molded from soft and pliable plastics, the heart of the belt is a frame work of flexible and stretchable materials. The stiff insert is made to rotate and adjust to different heights. The non-stretch Velcro® is completed by the double stretching design of the floating adjustments. If this sounds like a lot mumbo jumbo, just try the new Radius and shut up about it.

## FLEX GUARD BELT

\$49.99

### Flex Guard Belt.

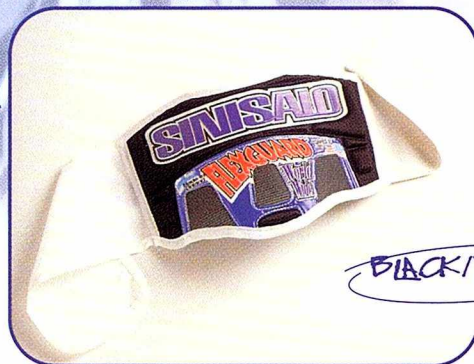

Which belt has won more Supercross races than the next leading brand? Give up? The Flex Guard™ belt from Sinisalo. Constructed from Bio Foam and featuring a Thermalweld graphic, the Flex Guard has 2 non-stretch adjustments with a double section of stretch for the ultimate in fit and comfort. A little longer than last years belt but not a inch taller. Two designs featuring a 28-32 waist length and a 32-40 waist size. Convenient and good lookin' too.

## KIDS FLEX GUARD BELT

\$39.99

### Kids Flex Guard.

The new Kids Flex Guard has many of the same features of the big guy but it's made for kids. (That's where we got the name.) A single stretch and loop section allows a kid proof installation. The Bio Foam construction and Thermalweld graphic are guaranteed to provide moto after moto of pure satisfaction.

BLUE/VIOLET

**The New Sinisalo Enduro Jackets.**  
 What kind of jacket do you think a country that gets so cold you can't blow your nose would build? That's right. The best darn thing around. *scheesh*. Made from Cordura, known for strength and weather resistance and constructed with a pattern which allows total freedom of movement. The sleeves feature an anatomic panel on the inner side, an adjustable cuff and removable shoulder and forearm pads/cups. Convenient pockets, waist strap and sealed zipper keep the nasties out while the longer tail section keeps everything else out. Made In Finland. Where the animal of the country is the Reindeer. not the moose.

**SCX Boots.**  
Sinisalo makes pants and gloves. We know our specialities. Italy makes shoes and boots. Italy makes the new SCX Sinisalo boot. Made using the finest Full Grain, Full Flower, what ever the phrase of the month is for the best leather you can buy. The upper is designed to break in fast and break down slow. Quite a combination. The 3 color injection molded shin plate is molded in a compound curved design, nothing earth moving, just the best way to do it. The SCX boot now features 4, full adjustable and replaceable buckles, a smaller, lighter and more politically correct ankle plastic. Gel ankle pads? Plastic inserts? Foam pads? How about the best of all worlds. 2 color combinations help make your buying decision easier. Who wears 'em? Who ever wants to.
